PURPOSE:

The Solid Waste Division of Public Services has two side loading refuse trucks in need of replacement due to age and hours. Using a National Joint Powers Alliance (NJPA) contract two 2016 Peterbilt trucks with New Way Side Loading Refuse bodies are being recommended for Council approval.

BACKGROUND:

The Solid Waste Division is currently using two 2007 Autocar trucks with the Labrie side loading bodies that both have over 10,000 hours. These trucks are used daily for residential garbage collection and need to be moved into our spare motorpool due to age and hours. Solid Waste has a total of thirteen side loading trucks and will give them two spare trucks to have while their trucks are being serviced and repaired. This will help to reduce downtime for the department as well as overtime for our technicians. The New Way side loading refuse body is similar to the ones they are currently using and will meet their needs. The price of \$257,988.79 is for one truck, body installation, and delivery. Estimated delivery is 90-120 days. Total cost is \$515,977.58 for two refuse trucks.

BUDGET IMPACT:

Funds are available in 2015-16 Solid Waste Fund budget

RECOMMENDATION / ACTION REQUESTED:

The Fleet Services Department recommends purchasing the two Peterbilt trucks with New Way side loading refuse bodies from Scranton Manufacturing Company and retaining the existing two trucks as spares.
