RE: Letter of Notification of Roads Scholar Status

Dear Mr. Lackey:

Congratulations! You have successfully completed the basic education program requirements for becoming a North Carolina Roads Scholar.

As you know, the Roads Scholar Program is a professional development opportunity offered by the North Carolina Local Technical Assistance Program at ITRE. The purpose of the program is to recognize local government personnel who have significantly increased their knowledge of road maintenance procedures and improved their technical and managerial skills. By successfully completing 7 of the 14 Roads Scholar courses offered through the center, you have earned this professional distinction for yourself and for the City of High Point.

As an activity of the NC LTAP, the Roads Scholar Program is funded by a grant from the Federal Highway Administration, U.S. Department of Transportation, through the Local Technical Assistance Program. This program is one of many Roads Scholar initiatives implemented by other technology transfer centers nationwide.

Thank you for your participation in this program, and congratulations once again on becoming a North Carolina Roads Scholar.

Sincerely,

Mr. James B. Martin, P.E.
Program Director, North Carolina Technology Transfer Center
