WITNESSETH:

SHRP2 IMPLEMENTATION ASSISTANCE PROGRAM PLANNING PROCESS BUNDLE STATEMENT OF WORK

This Statement of Work describes the tasks, deliverables, schedule, and cost estimate required for the use of SHRP2 Implementation Assistance Program funds provided to the High Point Urban Area Metropolitan Planning Organization for deploying a product(s) within the Planning Process Bundle (C02/C08/C09/C12/C15). Your MPO has been selected to receive a SHRP2 User Incentive grant in the amount of \$50,000.

Use of Funds:

These funds will be used to...

Develop a concept plan which engages and builds consensus among a variety of partners and community stakeholders. We want to develop a vision for the multi-modal transportation facility and surrounding area that serves not only the City of High Point but the entire HPMPO region that promotes livability, walkability, improved access, and economic development opportunities through land use, urban design, and redevelopment. Our partnerships with the Piedmont Authority for Regional Transportation [PART], the Piedmont Triad Regional Council [PTRC], the Transit Alliance of the Piedmont, the North Carolina Railroad, Hitran and local community development corporations like the City Project and Southwest Renewal Foundation, are key to integrating current and existing planning efforts with the 2040 Metropolitan Transportation Plan of the HPMPO, taking full advantage of the products offered through this Planning Bundle Process of SHRP2 SOLUTIONS.

The multi-modal transportation facility located in downtown High Point currently consists of the High Point Train Depot and the Hitran bus terminal, and a proposed urban greenway will traverse the area. There is interest in creating an entertainment venue to take advantage of the multi-modal transportation options available. Multiple stakeholders have plans for how this area should be developed, so this planning process bundle will help bring these partners and plans together to collectively create a unifying vision. The goal is to use the transportation community visioning tools in C08 to assist key stakeholders in development of the High Point multi-modal Transportation Center small area planning study that addresses connectivity issues, livability, and promotes economic development. The study will include a cost estimate, a funding plan, and an implementation plan.

The specific Planning Process Bundle product(s) to be addressed include...

The High Point MPO will use the Planning Process Bundle product Transportation Visioning for Communities.

Note: User Incentive recipients of Implementation Assistance Program funds may request a workshop facilitated by FHWA to provide additional information on the selected Planning Process Bundle product(s) and assist with developing a tailored action plan to implement the select Planning Process Bundle product(s). The next two sections of this Statement of Work ("Expected Deliverables" and "Schedule and Cost Estimate") should clearly articulate and outline whether and when a workshop is desired (with FHWA's costs for conducting the workshop to be deducted from the total SHRP2 award).

1. Develop Municipal Agreement with NCDOT
2. Request for Proposals (If using a Consultant)
3. Consultant Selection
4. Project Kick off Meeting
