PURPOSE:

The City of High Point uses “pay as you go” funds to replace portions of storm pipe on the City of High Point system that are undersized, damaged or otherwise at the end of their useful life. The City also has funds remaining in the 2004 GO Bond issue to be used for stormwater improvements. Using these funding sources, City Council is asked to approve contract 2016-004 for Storm Sewer Improvements.

BACKGROUND:

On Wednesday, April 6, 2016 the City of High Point received and opened bids for Contract ENG-2016-004. We received four responsive bids:

Breece Enterprises, Inc.	\$ 848,164.00
Yates Construction Company, Inc.	\$ 914,121.00
Landsdown Earth & Pipe, Inc.	\$ 931,384.00
Triangle grading and Paving Company, Inc.	\$1,553,689.50

The availability date of this contract is immediately upon execution of the contract documents. The completion date for the contract work is 402 consecutive calendar days from the Notice to Proceed. The contractor is bound by contract to begin work on Hedrick first, Chandler second and complete Gatewood by the end of 2016. There are also intermediate completion times and liquidated damages built into the contract for each project.

The purpose of this contract is to replace/redirect existing storm sewer lines that are at the end of their useful life. Our Stormwater Services section recommended each of these improvements based on number of maintenance calls and flooding issues related to each of these areas. The engineer’s estimate for the work is \$830,000.

BUDGET IMPACT:

Funding is available in the 2004 GO Bond (471739) and the Stormwater “pay as you go” account (671732)

RECOMMENDATION / ACTION REQUESTED:

The Engineering Services Department and the Public Services Department are requesting City Council to approve this contract award to Breece Enterprises Inc. and authorize the appropriate City Official to execute the necessary documentation..
