

Caring Services, Inc.

**A Private, non-profit Agency providing
housing and supportive services to
recovering individuals**

Major barriers to treatment do exist, especially for those without private insurance and who don't qualify for Medicaid.

In addition, personal barriers such as the stigma of accessing services and denial or inability of the individual to accept treatment hinder access to services.

Establishing community-wide efforts which include law enforcement, the faith community, business community, neighborhood associations, educators, and service providers insure that those seeking recovery have the opportunity to rebuild their lives.....one day at a time.....and to be a vital and healthy part of our community.....

Substance Abuse Affects The Entire Community

This is why we care....

- Alcohol contributes to crime, violent crime, injury and death
 - Illicit drugs are involved in the spread of diseases
 - 80% of child welfare cases involve substance abuse, as estimated by the Guilford County Substance Abuse Coalition
 - Recovering individuals cite two factors necessary to sustaining recovery...PERSONAL CHANGE and CHANGE OF ENVIRONMENT. Strong support group systems and transitional housing are especially needed.

What Is Recovery?

Recovery from addiction is a long-term journey of personal growth. It builds on abstinence from substances of abuse to encompass physical, emotional, social, and spiritual healing.

Managing the task of day-to-day living is a fundamental element of sustained recovery.

Faces of Recovery

Addiction can affect the old, the young, family, friends, doctors, lawyers and even the clergy. No one is immune from addiction.

Addiction Is A Brain Disorder

For many years, alcoholism and other addictions were widely regarded as evidence of moral weakness and lack of will power.

As addiction so often leads to irresponsible and even antisocial conduct, the condition further becomes stigmatized.

Who are our Residents?

**We do not house people who use
alcohol or drugs**

**Our residents have chosen to leave
a life with drug and alcohol
addictions**

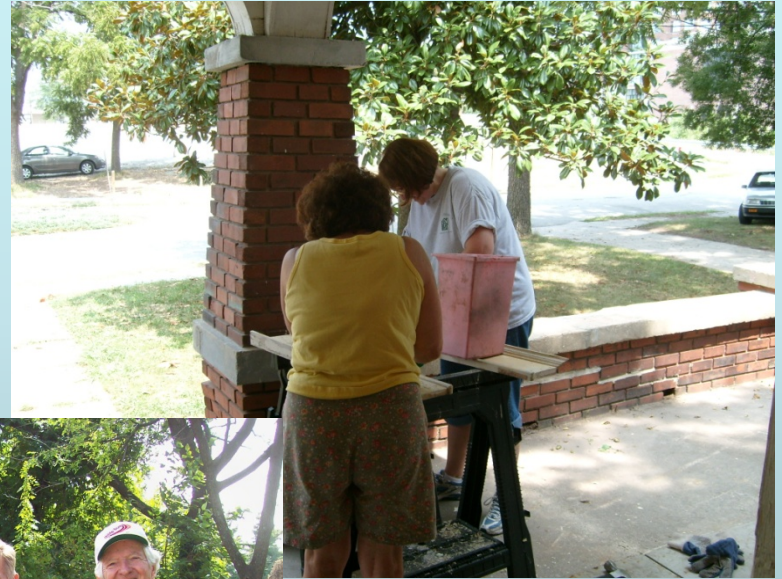

Emerywood Baptist Church Project Cornerstone and Caring Services Join Forces

We completely remodeled a former crack house on Oakwood St. which now houses 6 women in recovery.

Everyone was ready to help out, young and old!

We used as much of the original materials as possible.

Women in recovery now enjoy this beautiful home, thanks to the love and support of the community.

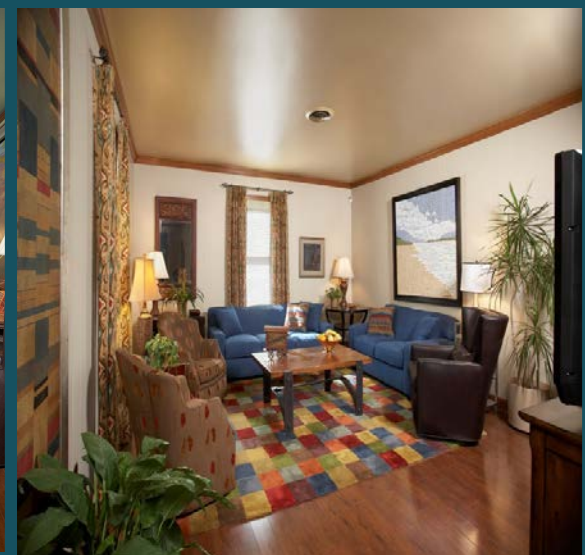

Our clients are just like that
old house on Oakwood Street.

We all see the outside, few (if
any) get to see the beauty of
the inside.

Renovations of our veterans living quarters, 2010, through the generosity of the community. Caring Services has a program specifically dedicated to those who served our country who have struggled with addiction. We are grateful for the opportunity to serve those who have served us.....

The newly re-modeled Vet Safety Net

The “White House”, our newest renovation project for Caring Services

Novartis Animal Health Care provided 32 volunteers to begin the renovation project of the White House on Friday, May 6th. Representatives of Forest Hills greeted, welcomed, thanked and provided doughnuts and coffee for the volunteers as they arrived.

**Our homes exist harmoniously with
ALL neighbors**

**Our other homes are well-
maintained, an asset to their
neighborhoods, and do not
have complaints from
neighbors**

We Are a High Point Success

We are grateful to all of the citizens and churches and the City of High Point for their willingness to partner with Caring Services in addressing addiction in our community and being part of the solution.

“Inasmuch as you have done so for the least of these . . .”

Matthew 25
