- ▶ *We as a police agency have been proactive in our approach to enforce laws and ordinances in the Uptown area.*
- ▶ *The unfortunate reality is that while these crimes are nuisances they are not to the level where high bonds will be issued by magistrates which often leads to frequent contact and charges by our officers.*
- ▶ *We share the same frustration but remain focused on following and enforcing the law during our contacts with those involved.*

Important Points

- ▶ We encourage our business owners to post properties “No Trespassing” and make sure we (HPPD) have a trespass letter on file.
- ▶ We ask for patience as our approach requires we follow the laws of this state when it comes to enforcement and even voluntary contact of these individuals.
- ▶ Calls are prioritized based on call volume and severity of the activity but we will always respond so we encourage you to call when there are issues.
- ▶ Please use the Downtown Beat Officers as a resource to help mitigate or solve problems as they arise.
