Anonymous Caller: *“Hi, I’m calling concerning the article in the newspaper about the Brittano Group film company requesting a loan from the city. I hope you all will vet the company very carefully because they have a lot of issues going on internally and that’s a lot of money, taxpayer money, that could go down the drain. So, I know they are asking for a lot, but that’s a lot of money to give them for films concerning the economy and their background, their experience. From everything I’ve read or heard, you know, how much have they putting up? They may be jumping on the bandwagon of umm that this is a black project to help the black neighborhood, but I just hope you all will look at all the information very carefully before you make a decision. I just wanted to leave my opinion. So, would you please pass this on to the Governor? I mean to the Mayor. Thank you.*
