Consistency and Reasonableness Statements

Zoning Map Amendment 20-05 is consistent with the City's adopted policy guidance because as conditioned, the requested CZ-LI District is supported by policies of the Land Use Plan and does not conflict with previously established land use policies governing this segment of the Eastchester Corridor Plan. Furthermore, the requested CZ-LI District will be consistent with the adjacent zoning approval granted for similar abutting LI zoned properties lying outside the Eastchester Gateway Corridor Overlay District.

Consistency and Reasonableness Statements

Zoning Map Amendment 20-08 is consistent with the City's adopted policy guidance because the Land Use Plan classifies this area as Low Density Residential, which supports residential uses at a density of five units per acre, and both the current CU R-5 District and the proposed CZ RM-5 District allow residential development at a maximum of five units per acre. Furthermore, the proposal would allow the creation of a residential development that would provide a land use transition from the higher density multifamily development adjacent to the south to the lower density single family residential development adjacent to the north.
