Lee Tillery Parks and Recreation Director reported the request was for replacement of wooden bulkhead section along Hole #4 at Oak Hollow Golf Course. The original boardwalk was failing structurally that resulted in severe erosion and deteriorating conditions. Oak Hollow Golf Course was built in 1971 and a wooden bulkhead system was constructed along Hole #4 establishing the border between the lake and a sloping topography located below the green. Our recommendation was to go back with a similar wood/timber bulkhead system with S & S Contracting of North Carolina for the cost of \$242,685.90. This is within our CIP budget and work will take place in the winter months when play is traditionally down. Two holes will be closed for the duration of the project (#3, #4), and work should be completed within 90 days once construction has begun. The project was projected to be completed in the spring.
