Blight Reduction

Council Member Williams, Chair of the Community Development Committee, provided the following report for March 2021 Code Enforcement Activity.

LCE staff recorded 22 zoning complaints.

A total of 73 Public Nuisance cases were abated (10 were city abated and 63 were owner abated).

Due to the pandemic, the LCE staff did not work on a Saturday during the month.

There are 4 properties with contracts out for demolition.

There are 2 housing cases with an ordinance passed for demolition waiting for repairs to be completed (337 Wingo and 216 Underhill).

There are 4 properties with ordinances passed in the appeal period. Demolition bids will be requested when the appeal period is up.

There are 3 inspector positions open and interviews are commencing.

During the report period there were 450 active cases: 237 active minimum housing cases; 90 active public nuisance cases; and 123 active zoning cases.

Following the update, Council Member Williams recognized Lori Loosemore, Code Enforcement Manager, for an update.

Ms. Loosemore shared some photographs of properties that were repaired at 418 White Oak Street (a duplex) and 311 Fourth Street. She commented that interestingly the pandemic has been good for the city in the sense that property owners are making repairs to these structures.

Marketing & Branding Initiative

Council Member Holmes, Chair of the Marketing & Branding Task Force, reported that they did not meet last month. They had planned a Strategic Retreat in March; however, due to some significant questions raised, they felt it best to get answers before engaging the public and key stakeholders in a retreat. He shared that the following questions were posed:

1. What is the city's financial resource commitment, both financially or in man hours with the marketing team?
2. What is going to be the outcome after the retreat is held?
3. Are we going to engage an outside agency once the campaign is over?

He hoped to have discussion by City Council at the next Manager's Briefing on what the city commitment will be for a full scale campaign on both the marketing and branding side and also look at some traditional branding material, logo, etc.... Once these issues are determined, the plan is to have the retreat in mid-May.

Resolution Opposing the Passage of Legislation in the General Assembly of North Carolina (SB 349/HB 401)

Staff is requesting that Council adopt a resolution opposing the passage of SB 349/HB 401 in the General Assembly of North Carolina relative to planning legislation regarding elimination of single-family zoning statewide. SB 349/HB 401 "Increase Housing Opportunities" is the latest effort by development interests - now cloaked in the language of affordable housing - to extinguish local authority when it comes to determining how growth and development proceed.

Attachments: [FINAL Addendum SB 349-HB 401 Resolution Resolution Oppose SB349 HB401](#)

Motion by Council Member Williams, seconded by Council Member Jones to suspend the rules to add this matter to the agenda for consideration at tonight's meeting. There were no objections or opposition to suspending the rules; the motion carried by a 9-0 unanimous vote.

Greg Ferguson, Assistant City Manager, advised this bill focuses on a number of changes that would weaken the city's authority under North Carolina law to utilize current Planning & Zoning functions with one being to do away with single family zones to allow other zoning types. Because of this, he stated it has the probability of having major impacts on existing single family neighborhoods. Additionally, he stated that it significantly weakens the city's authority in the zoning arena and erodes on the protection afforded to a single family neighborhood from some of

the uses that those residents might not want adjacent to their neighborhood. Staff is recommending that Council adopt the Resolution opposing Senate Bill 349 (SB 349) and House Bill 401 HB 401).

Mayor Pro Tem Moore asked if the proposed bill would essentially remove the single family residential zoning designation and if there is a pattern of doing this in other states. Mr. Ferguson affirmed that it would and added that it would allow any multi-family or mixed multi-family type product in a single family zone in the future. He noted that he read not long ago that there was some proposal along this line in the City of Charlotte and advised that information sent out by the NCLM on this type of zoning change indicated that the State of Oregon had made some sweeping changes.

Mr. Ferguson explained that it is positioned as being friendly to affordable housing, friendly to workforce housing, and basically the thought process behind it is that if a city is allowed to create single family zones, then they are allowed to keep more affordable housing out because some single family products are just too expensive. He further explained that historically, cities have had pretty broad discretion in determining what areas of town, what part of town, and what adjacent uses are appropriate for multi-family housing based on local feedback to the City Council, the Planning Board, and other parties with the City Council ultimately, through the Planning Board, enacting those zoning designations to determine where multi-family housing is needed. He advised there are a host of factors that go into it, but broadly declaring that single family zones all over the city should be open to multi-family housing does not respect the local input process and takes away a sizeable amount of the city's authority to determine and hear from its residents and then for the City Council to use that power.

Council Member Holmes asked if the interpretation of the proposed bill would allow developers who want to build traditional single family homes and the Planning & Zoning Commission voted against it, if they could challenge it and cite this law as a reason to overturn the decision. Mr. Ferguson stated as he understands it, the existing single family only designated zones would be opened up to multi-family housing, but he was not sure how that would occur.

A motion was made by Mayor Wagner, seconded by Council Member Williams, to adopt the Resolution Opposing the Passage of Legislative in the General Assembly of North Carolina (SB 349 and HB 401). Following a roll call vote by Mayor Wagner, the motion carried by the following 9-0 unanimous vote:

Aye: 9 - Mayor Pro Tem Moore, Council Member Williams, Council Member Jefferson, Mayor Wagner, Council Member Holmes, Council Member Peters, Council Member Johnson, Council Member Jones, and Council Member Hudson
